

Are you ready for the One World Eco Challenge?

Directions for Eco Passport: Observe your patterns for one week and try to perform at least 10 eco acts. Mark the appropriate box with a check mark for every eco action you make. After the week is over, return you Eco Act Passport to your advisor, signed by your guardian.

Optional Instagram Activity- If you or your family members use Instagram, use the hashtag **#OneWorldOneEarth** to post eco-friendly & earth day related pictures. Our goal is to see how many images get posted from OneWorlders, from clubs all around the world! All students, parents, teachers and friends are all encouraged to participate so be sure to share the Hashtag with your friends and family! If you or your guardian do not have an Instagram account, but you do have a camera, you can send your photos to your advisor to post.
